Report on Crime Scene Findings

MBI CASE NUMBER: S20-00000138(001)

LEAD CSU ANALYST: CSU Dywana Broughton

LEAD INVESTIGATOR: MBI M.Sgt. Michael Mauney

TYPE OF INCIDENT: Coahoma County Officer Involved Shooting

DATE OF INCIDENT: Monday, March 19 2020

DATE PROCESSED: March 19, 2020

LOCATION: Residence @ 907 Pecan Street,
Clarksdale, MS

SUBJECT: Maurice Donell Mason, B/M

OFFICER(S): Deputy Marcus Cohen
Deputy Eric Bilbro

S20-00000138(001)
CSU Dywana Broughton

REFERENCE

On Monday, March 9 2020, at approximately 7:08 a.m., the Mississippi Bureau of Investigation Crime Scene Unit (MBI/CSU) received a request from MBI Lieutenant Bryan Sullivant to respond to a Law Enforcement officer-involved shooting at 907 Pecan Street in Clarkdale, MS and examine the scene for evidence related to the shooting of the subject, Maurice Mason. Sullivant reported numerous police officers breached/entered the front (south) door, the male subject was on the couch in the living room and was shot multiple times.

OVERVIEW OF LOCATION

NARRATIVE SUMMARY:

On Monday, March 9, 2020, at approximately 8:50 a.m., the undersigned arrived at the aforementioned location to begin the examination of the scene. A concrete driveway with two vehicles facing north was along the east side of the residence. The most northern vehicle was a black "Mercedes-Benz CLS 550" bearing a Mississippi Coahoma tag "DAY 6". Parked behind it was a blue "Chevrolet CRUZE LT" bearing a Mississippi Coahoma tag "CGB 3291". The homes were noted to be in close proximity to one another.

The residence was a single story yellow brick constructed home facing south towards Pecan Street with a wooden fence surrounding the back. The porch lights were on and steps and a sidewalk that lead to the street were along the front center portion of the home. A mail box and a metal sign engraved "907

S20-00000138(001)
CSU Dywana Broughton

Pecan Street" were mounted on the wall right (east) of the door. A metal/glass storm door, metal rods, and a door ram device labeled "KNOCK KNOCK" were in the grassy area along the front west side of the yard. The glass in the door was not broken but the metal frame was bent. An iron hatchet tool was leaning against the east side of the porch. A cartridge case stamped "Hornady 9MM Luger +P" and suspected blood drops were on the top step. Suspected blood drops, a partial bloody footwear impression, and pieces of the broken wooden door frame were on the porch near the entrance. The front entrance door was open and the living room lights were on.

A floor mat with splinters of wood on top was inside near the entry door. This room was in complete disarray with blood drips and partial bloody footwear impressions throughout the floor. A white blood soaked cut t-shirt was on the floor near the doorway. The shirt had numerous holes in it (unsure if they were caused by projectiles). A large pool of blood was on the floor near the east wall couch. Splinters of wood were throughout the floor, on the couches, and on a wooden dining room table near the south wall. Four apparent projectile defects were on top of the wooden table along with various items (a beer bottle, numerous ashtrays, a black hat, numerous glass candle holders, keys, charging cords, a brown handle hair brush, the television remote control). A wooden chair with a broken base, splinters of wood, and blood were under the table. A red/black foot massager with a cord attached was against the south wall near the table. A brown leather like couch with numerous throw pillows on top, a pair of eye glasses, wood splinters, a piece of white plastic, and blood along the bottom portion was against the east wall. An apparent projectile defect was on the wall above the couch. A wooden coffee table with various overturned items on top was against the right arm of the couch. A wooden chair with a jacket draped across the back was near and in front (west) of the table. Two apparent projectile defects were on the brown curtains hanging above the east wall window. The projectiles entered and exited through the broken window. A large blood pool with a projectile resting in it was on the floor near and in front (west) of it. Projectile ricochet defects were on the floor in the pool of blood. A metal door locking mechanism with the screws still attached was on the floor north of the entrance. The interior side of the entrance door was damaged and the locks were still secured and locked. A large indentation was on the south wall near the door and a small indentation (most likely caused by the door knob) was on the west wall behind the door. A black "BB" rifle was upright behind the entrance door. Two (2) cartridge cases stamped "WCC+P+", four (4) cartridge cases stamped "Hornady 9MM Luger +P+", two (2) cartridge case stamped "WIN 9MM Luger", and one (1) projectile were on the floor near the entrance doorway. A brown leather-like couch with a black jacket resting on top was against the north wall. A black police shield labeled "INTRUDER" was on the couch. One (1) apparent projectile defect entered/exited the couch and entered/exited the sheetrock behind it. One (1) cartridge case stamped "WCC+P+" was under the couch. A wooden stand with a television on top and various other items was against the west wall. There were two openings that lead to other rooms along the north wall. One opening was near the northwest side which led to a hallway and the other was along the northeast corner which led to a kitchen.

S20-00000138(001)
CSU Dywana Broughton

The northwest living room opening led to a bathroom and two bedroom along the west side. These room which appeared undisturbed and consistent with the living conditions of the occupants, were documented by photographs, and no items of evidentiary value were noted.

The northeast living room opening led to a large kitchen with a red top pool table in the center of the room. A copper jacket was on the floor near the opening. A projectile was on top of the pool table. A projectile fragment was on the floor west of the pool table. An apparent projectile ricochet defect was on the wooden floor northwest of the pool table. An apparent exit projectile defect was on the south kitchen wall next to a wooden stool. Sheetrock dust from the defect was on top of the stool. An apparent entry/exit projectile defect was on the bottom portion of the north wall near a weight bar. Kitchen appliances and cabinetry were against the walls throughout the room. Laundry appliances and a video game machine were near the northeast corner of the room.

S20-00000138(001)
CSU Dywana Broughton

A small hallway leading to two bedrooms and a rear entry/exit door leading outside was north of the kitchen. A bedroom containing bunk beds was east of the hallway. An entry/exit projectile defect was at the bottom of the closet along the south wall. A master bedroom with a bathroom was west of the hallway.

The neighbors residence east of the subject's residence had an apparent projectile defect in the window. This residence was a tan colored wood constructed single story residence with the digits "901" attached to the wall right of the door and a sign "Daniels" hanging above it. A bedroom window on the west side of the residence had a projectile defect in the window and blinds covering the window. Glass fragments were on the floor below the window. An apparent projectile ricochet defect was on the interior bedroom wooden door. A projectile was on top of a night stand near the bedroom entry way.

PROJECTILE DEFECT EXAMINATION:

The four (4) Projectile Ricochet Defect's on top of the wooden table in the living were marked for identification as "A, B, C, and D". The directionality of the projectiles were from west to east and the trajectory of the projectiles are unknown due to the table being moved after the incident.

The one Projectile Defect on the east wall above the couch and right of the window was marked for

S20-00000138(001)
 CSU Dywana Broughton

identification as "E". It was approximately 5'4" right of the window and 5'4" from the south corner of the wall.

The two (2) Projectile Defects on the brown curtain covering the east wall window were marked for identification as "F and G". The projectiles exited the window and one entered the east neighbors (901 Pecan Street) west bedroom window. A projectile was collected as Ex. #16 from on top of the night stand beside their bed.

The one Projectile Defect on the north wall brown couch was marked for identification as "H". The projectile entered and exited the couch, entered and exited the wall behind the couch, ricochet off the wooden kitchen floor and struck the north kitchen wall. It did not penetrate the wall and most likely the projectile on top of the pool table.

ASSISTANCE RENDERED:

The crime scene was documented by photographs, notes, and sketches.

S20-00000138(001)
CSU Dywana Broughton

Please refer to the attached MBI/CSU Evidence Recovery Log for a list of the items photographed, collected, packaged, and marked for identification as evidence.

EVIDENCE DISPOSITION:

Exhibits #1 thru #19 were submitted to the Mississippi Forensic Laboratory (MFL) on March 10, 2020 @ 11:55 a.m. for Forensic Analysis under MFL Case #20-003608. Results of evidence examinations and reports thereof will be the subject of separate reports available through the Mississippi Forensic Laboratory.

Three hundred (300) color digital images in NEF format were taken with a Nikon D610 digital camera during crime scene processing and transferred to a compact disc. The original compact disc in NEF format and an additional working copy in JPEG format will be maintained in the Master File. A scanned copy of the report packet in Portable Document Format (PDF) and copies of the digital images in JPEG format will be provided to the requesting agencies. An additional copy of the digital images and a copy of this report will be uploaded and saved to the Mississippi Department of Public Safety ADSi Case Management System for long-term retention.

REMARKS:

The two Deputy's weapons (marked as Ex. #17 and #18) and one projectile (marked as Ex. #19) embedded in the living room floor near the blood pool in front of the east wall couch were all collected by MBI M.Sgt. Jeffrey Farish and released to the undersigned on 3-9-2020 at 5:04 p.m. for submission to the MFL.
